

2stand

Innovative Point-of-Sale displays
for your brands and products

HOW IT WORKS

2stand gives you the chance to improve your communication – for the right price. The design of the system makes it simple to handle.

The complete display is delivered flat-packed (820 x 630 x 40mm). The weight of 2stand is 5kg so it is economical to ship.

Fast delivery

Digital printing allows for a quick turnaround. Your display can be produced in a few days instead of weeks.

Solid base

Standard base is supplied in black. Other colours available on request. (Minimum quantities may apply).

Economical and flexible

The display is digitally printed, resulting in affordable pricing. If you want to change the graphics just replace them with a new sleeve.

Simple to assemble

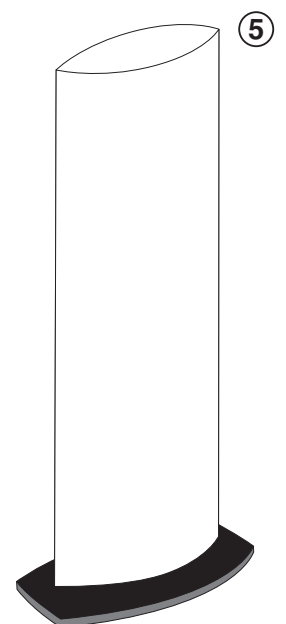

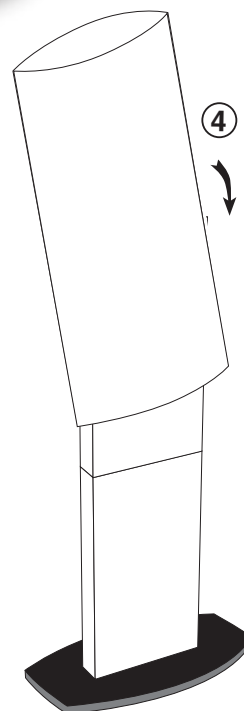

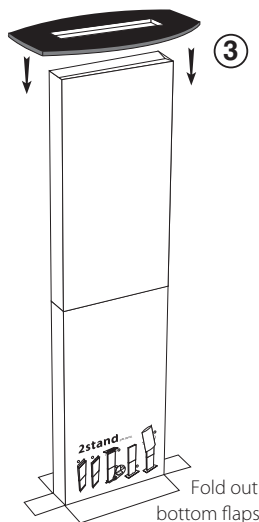

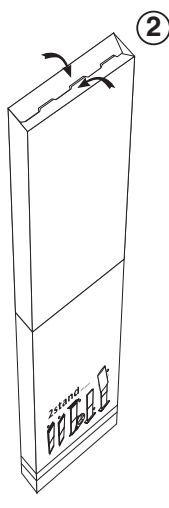

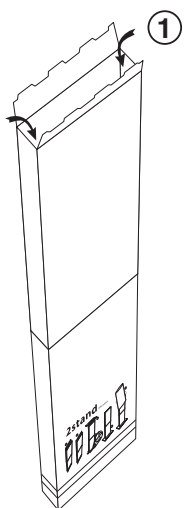

It is delivered flat and is assembled in minutes. Supplied in a carry pack.

High image quality

Printed on high quality fully coated multi layered board.

Simple to place

Double-sided printing is standard.

2stand

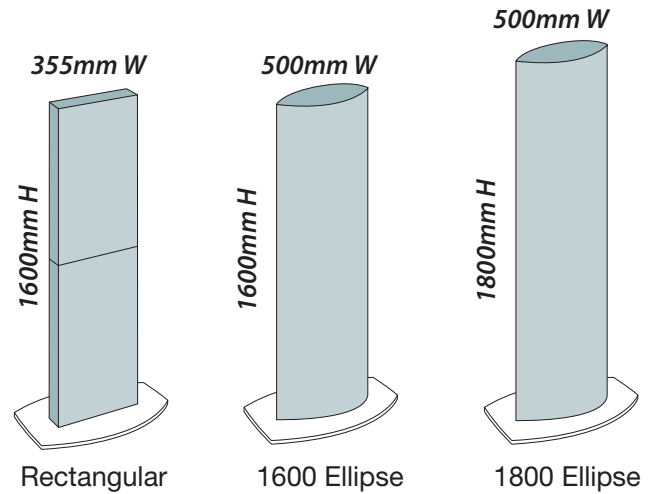

Innovative Point-of-Sale displays
for your brands and products

THE SYSTEM

2stand is an economical patented "off the shelf" Point-of-Sale system. The system consists of a base, pillar support and double sided printed sleeve. The entire system is supplied flat-packed in a convenient carry case weighing less than 5kg.

Available in either a rectangular or elliptical shape and in 2 heights.

Metal product hangers can be inserted into sleeve and pillar to display your products. Please ask for further information.

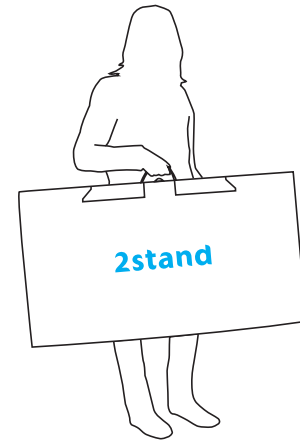

PRICES

File handling and pre-press charges may apply.
2stand is a patented product manufactured under license by Composite Images.
